I acquired 230 new patients (\$806,000) for a plastic surgeon in Miami from Feb-April 2017. I also created a system for the clinic to scale even further & increase productivity, employee engagement, and compliance. This was achieved with a mixture of conversion strategy marketing & SEO.

## Notes:

They already had a strong website so if you're just getting started, we'll need to build strength before this can be done. (est. 6-9 months)

As the office manager of a plastic surgery center, I can't think of anyone I would trust more than Lexi Montgomery to help your business. In the few brief months I have known Lexi, she helped us grow and scale super fast. She got us 230 new patients in about 2 months. Lexi did marketing, and also created strategies for our team to be more productive. She is also genuine and easy to work with.

One of my friends recommended that I hire Lex Montgomery to increase my online presence. I am so glad I got the chance to work with Lex because my business has changed dramatically ever since. I now find my business on the first page of Google which I am sure is the reason why we've been getting a lot more phone calls and business inquiries. She is truly an expert in her field. She took the time to listen to my needs and explain to me how she was going to rank my website. Love everything about her - from her work ethic to personality! Would highly recommend her to anyone looking to make more sales!

This is a screenshot from the backend of a website in the vaping niche. As you see, we began SEO on the site in January of this year.

At 6 months exactly, the site traffic had a massive increase. This is why we tell you it takes 6-9 months to get the search engine traffic we promise.

If this was a cosmetic dentist, with an average client value of \$10,000 & conversion rate of 5%... he would've gone from getting 2-3 clients a day to 17-18 clients per day.

That's the difference between making \$600,000 or \$5.1M – that's the power of SEO.

If we seem like a good fit to work together, I'll show you some up to date rankings. We don't just throw spaghetti at the wall, we make every dollar count.

But we can talk about that should we decide to move forward.
